No. 581.

SIR,—

I have the honour to transmit to Your Royal Highness, for the information of your Ministers, a copy of a notice published in the press on the 15th June, containing information for the guidance of persons desiring to record:—

(a.) Debts (including bank balances) due to British subjects from persons residing in enemy countries:

(b.) Other property in enemy countries (including securities) belonging to British subjects.

2. The Foreign Claims Office referred to in the last paragraph of the notice has been set up at the Foreign Office for the purpose of dealing with all claims for the settlement of which no satisfactory machinery has existed hitherto, and which are foreign in the sense that they are claims by British subjects against a foreign Government or by foreign nationals against His Majesty's Government.

I have, etc..

A. BONAR LAW.

The Governor-General,

His Royal Highness

The Duke of Connaught and of Strathearn, K.G., etc., etc.

BRITISH PROPERTY IN ENEMY COUNTRIES.

HOW TO RECORD CLAIMS.

WE are officially informed that it has been arranged that the Public Trustee shall keep a record of:—

(a.) Debts (including bank balances) due to British subjects from persons residing in enemy countries:

(b.) Other property in enemy countries (including securities) belonging to British subjects.

Any person desiring to record such claims or property can obtain the necessary form for that purpose (Form G in the first case and Form H in the second) from the Public Trustee. Applications should be made to the Public Trustee (Trading with the Enemy Department), No. 2 Clement's Inn, Strand, W.C.

It must be clearly understood that the action of the Public Trustee will be confined to entering upon the record claims of which particulars are supplied to him, and that in no way commits His Majesty's

Government either to responsibility for the correctness of the claim entered or to taking any action on the conclusion of hostilities or otherwise for the recovery of the debts or property in question.

The Public Trustee will record claims against enemy Governments in respect of public *securities* of those Governments held by the claimants, but other claims against enemy Governments (e.g., in respect of goods or property requisitioned or sequestered) as distinct from claims against enemy subjects should be notified to the Director of the Foreign Claims Office, Foreign Office, S.W.

1. During the war no probate of a will or letters of administration of the estate of any German, Austro-Hungarian, Turkish, or Bulgarian subject, wherever resident, shall be granted in respect of any assets in this country without the express licence of the Crown acting through the Minister of Finance.

2. In all cases where probate or letters of administration are granted during the war to any person entitled thereto, the grant shall be made upon the condition that no portion of the assets shall be distributed or paid during the war to any beneficiary or creditor who is a German, Austro-Hungarian, Turkish, or Bulgarian subject, wherever resident, or to any one on his behalf, or to or on behalf of any person resident in Germany, Austro-Hungary, Turkey, or Bulgaria, of whatever nationality, without the express licence of the Crown acting through the Minister of Finance; and if any distribution or payment is made contrary to this condition the grant of probate or letters of administration will be forthwith revoked.

3. Any applicant for letters of administration or probate during the war shall furnish evidence to the satisfaction of the Judge to whom application is made that the person in respect to whose estate such probate or letters of administration are applied for was not a German, Austro-Hungarian, Turkish, or Bulgarian subject; or, failing such evidence, shall produce the licence of the Crown that such probate or letters of administration may be granted. Such applicant shall also give such information as the Registrars of the Courts may require in order to ascertain whether any of the assets would in time of peace be distributable or payable to any such subject, and if required shall make a statutory declaration as to the assets and their disposition in the event of probate or letters of administration being granted.

4. In cases deemed by him proper, the Minister of Finance may sanction the payment of moderate sums out of assets to beneficiaries or creditors who

MUNICIPAL BY-LAWS.**EAST DELTA PUMP BY-LAW, 1918.**

A By-law to provide for the Purchase and Installation of a Pump, with Buildings and Accessories, etc., on the Property within the East Delta Drainage Scheme, 1912, and for borrowing on the Credit of the Municipality a Sum not exceeding \$12,500 for completing same. Provisionally adopted the 13th day of April, 1918.

WHEREAS two-thirds in number and value of the owners, as shown by the last revised assessment roll, of the property hereinafter set forth to be benefited by the said pump and works have petitioned the Council of the Corporation of the District of Delta, praying for the purchase and installation of a pump or other mechanical operation at the head of that certain slough adjoining the original flood-box in the East Delta Drainage Scheme for the purpose of assisting a further and better drainage of the lands and premises contained in said scheme, and more particularly described as follows:—

Commencing at a point on the north shore of Boundary Bay, the same being at an intersection of the west boundary of Section 29, Township 3, and the north shore of Boundary Bay; thence north to the north-west corner of the South-west Half of Section 8, Township 4; thence to the north-east corner of the South-west Half of Section 10; thence north 20 chains; thence east 40 chains; thence north 20 chains to the north-west corner of Section 11, Township 4; thence east and following the northerly boundary of Section 11 to the base of a hill; thence following the base of a hill in a southerly and easterly direction to the east boundary of the South-west Half of Section 12, Township 4; thence south to the south-west corner of the North-east Half of Section 1, Township 4; thence along the south boundary of the Semiahmo Road to the east boundary of Section 2, Township 4; thence south along the said east boundary to an intersection with the north shore of Boundary Bay; thence following the north shore of Boundary Bay to the point of commencement:

And whereas thereupon the said Council procured an examination to be made by D. J. McGugan, being a person competent for such purpose, of the said locality in which the said pump and all neces-

sary accessories, building or buildings, rights-of-way, approaches, or other apparatus are to be installed, and has also procured plans and estimates of the work to be made by the said D. J. McGugan, and an assessment to be made by him of the lands and roads to be benefited by such pump, buildings, etc., and stating as nearly as he can the proportion of benefit which in his opinion will be derived in consequence of the purchase and installation of such pump and all necessary accessories, building or buildings, rights-of-way, approaches, or other apparatus by every lot or portion of lot, the said assessment so made being the assessment hereinafter by this by-law enacted to be assessed and levied upon the lots or lands and portions of the same hereinafter in that behalf specially set forth and described, and the report of the said D. J. McGugan in respect thereof and of the installation of the said pump and all necessary accessories, building or buildings, rights-of-way, approaches, or other apparatus being as follows:—

“NEW WESTMINSTER, B.C., May 2nd, 1918.
“To His Worship the Reeve and Councillors of Delta:

“GENTLEMEN,—I have the honour to report to you that I have, according to your instructions made an examination of the drainage facilities of that district coming under the 1895 East Delta Dyking Scheme. I find that, to give the necessary measure of drainage on these lands, it will be necessary to install a pumping-station on the site of the flood-gate at the Big Slough which will have a capacity of 20,000 gallons per minute. The dyke, while at present giving excellent and adequate protection against the inroad of tidal waters, does not take care of the surface water, which either falls on or finds its way over these lands.

“I am enclosing an estimate of cost of such a pumping-station, also a description of the lands to be benefited, and also an assessment roll giving the annual payments, etc., for each land-owner. This said assessment roll is based upon the actual assessed value of the land.

“Yours very truly,
“D. J. MCGUGAN.

And whereas the said Council is of the opinion that the purchase and installation of said pump and all necessary accessories, building or buildings, rights-of-way, approaches, or other apparatus are desirable:

And whereas the East Delta Pump Construction By-law, 1918, was passed to purchase said pump and make temporary financial arrangements for the same:

Be it therefore enacted by the said Municipal Council of the said Corporation of the District of Delta, pursuant to the provisions of the “Municipal Act”:—

1st. That the said report, plans, and estimates be adopted, and that the said pump, with all necessary accessories, building or buildings, rights-of-way, approaches, or other apparatus, be purchased and installed and be made and constructed in accordance therewith:

2nd. That the Reeve and Clerk of said district municipality may borrow on the credit of the Corporation of the said district municipality an amount of money not exceeding the sum of \$12,500, being the funds necessary for the purchase and installation of the said pump, with all necessary accessories, building or buildings, rights-of-way, approaches, or other apparatus, and they may issue a debenture or debentures for the total sum borrowed of the Corporation to the amount so borrowed in sums of not less than \$100 each, and payable within two years from the date thereof, with interest at the rate of 7 per cent. per annum; that is to say: One-half of said principal sum shall

3rd. That for the purpose of paying the sum of \$12,500, being the amount charged against the said lands so to be benefited as aforesaid, other than the lands belonging to the municipality, and to cover interest thereon for the purpose above mentioned, at the rate of interest aforesaid, the following special rates over and above all other rates shall be assessed and levied upon the undermentioned lots, parts of lots, or other lands and premises more particularly described; and the amount of the said special rates and interest assessed as aforesaid against each lot, part of lot, or property respectively shall be divided into two equal parts, and one such part shall be assessed and levied as aforesaid in each year for two years after the final passing of this by-law during which the said debenture or debentures have to run:—

ing. This railing shall be constructed with two rails, the bottom of which shall not be less than eighteen inches (18") from the floor. Whenever main or auxiliary engines are located in a basement, they shall be completely railed or fenced off so that no unauthorized person can gain access thereto.

16. *Couplings and Collars, Keys and Set-screws.*—Shaft-couplings and set-collars shall be of a safety type, without projecting bolts, set-screws, or other dangerous projections, or be completely guarded.

17. *Clamp-couplings* shall be guarded by a cylindrical sleeve the full length of the coupling.

18. *Jaw-clutch Couplings* shall be provided with cylindrical sleeve which at least covers the jaws.

19. *Universal and Flexible Couplings* shall be so guarded or encased as to remove all hazards.

20. *Friction-clutch Couplings* shall have their operating mechanisms, where exposed, completely guarded.

21. *Keys* exposed to contact shall be made flush or guarded.

22. *Key-scots*, where exposed to contact, shall be guarded.

23. *Set-screws* or revolving parts shall be countersunk, or covered by a guard, or a headless set-screw shall be used. No part of the set-screw shall project above the surface.

24. *The Above Guards* shall be so designed, where practicable, as not to revolve with the part guarded.

25. *Friction-drives.*—The contact faces of all friction-drives, when exposed to contact, shall be enclosed.

26. *All Frictions* with projecting bolts shall be guarded.

27. *Bearings.*—Accurate alignment of bearings is an important factor in safety and in economy of operation. Frequent inspections of bearings and hangers are desirable. They should be so equipped with oiling apparatus that there will be no occasion for the oiler to come into dangerous proximity with shafting when it is in motion.

28. *Pulleys.*—Pulleys shall be placed at a slightly greater distance from bearings or hangers or other pulleys (except tight and loose pulleys) than the width of the belt, so that in case the belt slips off the pulley it will not become wedged between the hanger and the pulley or between the two pulleys, thus pulling down the line-shafting. If it is impracticable to space pulleys farther from a hanger or another pulley than the width of the belt, the intervening space shall be guarded in such a way that it will be impossible for the belting to become wedged should it slip the pulley. This may be done by placing a spool four inches (4") larger in diameter than the pulley on the side of the pulley adjacent to a hanger or another pulley, or by use of a belt-hanger. Pulleys shall be frequently inspected for cracks which are likely to develop in the arms or rims. When a crack occurs a piece of the rim may be thrown out by centrifugal force and cause a serious accident. Testing by hammer will usually disclose any defects.

29. *Idler Pulleys or Tighteners* used to tighten belts on pulleys, if provided with counter-weights, shall have counter-weights guarded or enclosed.

30. *Belt-shifters.*—(a.) A permanent belt-shifter shall be provided for all loose pulleys, and shall be located within easy reach of the operator. The construction of belt-shifters shall be such as to make it impossible for the belt to creep back on to the tight pulley. All belt-shifters shall be equipped with a lock or some other device to prevent accidental shifting.

31. *Belts.*—All belts, ropes, or chain-driving machinery or shafting, and all secondary belts, ropes, or chains, where exposed to contact, shall be guarded. In all cases the point where the belt, rope, or chain runs on to the pulley sheave or sprocket, if within six feet six inches (6' 6") of the floor or platform, shall be guarded.

Exception.—Belts which are so small that they are not in any way a source of danger.

32. *All Horizontal Belts, Ropes, or Chains* driving machinery or shafting six feet six inches (6' 6") or less above the floor or platform, where exposed to contact, must be guarded. All overhead

belts six inches (6") or more in width and over six feet six inches (6' 6") from the floor or platform shall be guarded underneath and on sides, unless so guarded that persons cannot pass under them. All chains or rope-drives over six feet six inches (6' 6") from the floor or platform shall be guarded in like manner to belts over six inches (6") in width. In all cases the guard should cover the outer faces of the two pulleys or sheaves and extend upward to such a point and be attached in such a way that, in case the belt, chain, or rope breaks, the guard will withstand the whipping force.

33. *Vertical and Inclined Belts* shall be substantially guarded as follows: If the guard be less than fifteen inches (15") from the belt, there shall be a complete enclosure of wood or metal to a height of six feet (6'), unless it is a small belt, then with the permission of the Board a small belt-guard need only be three feet six inches (3' 6") high. If the guard is placed at least fifteen inches (15") clearance from the belt, a two-rail railing at least three and one-half feet (3½') shall be required.

34. *Belt-tighteners* which control the operation of machines shall be equipped with a safety lock or stop which will prevent the application of the tightener to its belt until the lock or stop is released.

35. *Transmission Gearing.*—In this term is included all forms of spur-gears, pinions, bevel-gears, mortise-wheels, and sprockets for chain-drives, etc. Such gearing, wherever located, shall be strongly and completely encased, or when this is impracticable shall have a band guard provided with side flanges extending inward beyond the root of the teeth. Where there is a spoke hazard the gears always shall be enclosed on exposed side.

36. *The Operation of Driven Pulleys* on line or counter-shafts which have no bearing between the pulley and the end of the shaft shall not be used unless guides be provided which will prevent the belt running off the pulley.

37. *Runways.*—If possible, overhead runways shall not be less than twenty inches (20") in width and equipped with a handrail. If runway is less than twenty inches (20") in width, then same shall have two handrails. Access to these runways shall be in all cases by means of fixed ladders or railed stairways.

38. *If a Passage or Runway* pass between the strands of a belt, a substantially covered way with railed sides or other adequate guard shall be provided.

39. *If a Passage or Runway* passes over a shaft or conveyor, a substantial covered way with sides shall be provided.

40. *Ladders.*—All movable ladders (except substantial step-ladders) shall be provided with either sharp points at the foot or wide rough surface feet or other effective means to prevent slipping. Ladders for use in oiling overhead shafting, where necessary to rest same on the shafting, shall be arranged to hook over the shafting. Ladders shall extend at least two feet (2') above top of landing.

41. *Stairways and Handrails.*—All stairways shall be equipped with handrails, and the rails shall be kept smooth and free from nails and splinters.

42. *Where the Stairway* is not built next to a wall or partition, rails shall be provided for both sides.

43. *Floor Openings* shall not be allowed without guard-rails and the toe-boards without written permission from the Board.

44. *Floor Platforms and Wharves, etc.,* shall be kept in good repair and free from nails and other debris.

45. *Where timber, lumber, slabs, rock, or refuse* is dropped from mill floor to lower floor or ground, the space where it is dropped to shall have a railing so as to prevent any person from walking under said opening.

46. *Emery-wheels, Hoods, and Guards.*—Emery-wheels used for grinding purposes shall be equipped with a hood connected with an exhaust-fan or water system. A guard shall be provided as a part of the hood-construction or in addition to the

hood, which shall be strong enough to withstand the shock of a bursting wheel. This guard shall be adjusted close to the wheel and extend over the top of the wheel at a point thirty degrees beyond a vertical line drawn through the centre of the wheel. The exhaust or water system is not required on emery-wheels which are in general use by all employees in common to touch up castings or tools.

47. *Arbor Ends* shall be guarded.

48. *Speed of Wheel* shall not exceed the speed guaranteed by the manufacturer or determined by the Inspector.

49. *Goggles* shall be supplied for workmen while working at emery-wheels, or the guard shall be equipped with an extension guard with steel frame and heavy glass to prevent sparks striking workmen in the eyes. Celluloid-frame goggles shall not be used.

1. *Scaffolds* in particular shall receive the most careful attention as to strength and rigidity.

2. *All Scaffolds* shall be kept in the best of repair and all broken or rotten timbers or boards removed.

Where scaffolds are over ten feet (10') above the ground or floor, they shall, where practicable, be equipped with a railing and toe-boards or skirting-boards to prevent falling material. On suspended scaffolds, where practicable, it shall be necessary to use wire rope for slings and stirrups.

That the complete special survey of District Lots Twenty-nine (29), Thirty (30), and Fifty-three (53), Group 1, New Westminster District, directed, together with the survey of all other lands in Burnaby Municipality, by the Attorney-General on August 31st, 1912, to be made under the provisions of the "Special Surveys Act" by Stuart S. McDiarmid for the purpose of correcting any error or supposed error in respect of any existing survey or plan, and of plotting land not before subdivided, and of showing the divisions of land of which the divisions were not shown on any plan of subdivision, and in respect of which further directions were given by the Attorney-General on March 13th, 1913, and December 23rd, 1913; and the plans thereof which were duly completed and filed on June 18th, 1914, with the Provincial Secretary as amended by the plans filed on January 11th, 1918, with the Provincial Secretary, showing variations, alterations, and amendments duly directed to be made, be approved.

And that the said plans as so amended are substituted for all former plans and surveys of the land comprised in said District Lots 29, 30, and 53, Group 1, New Westminster District, which had theretofore been registered.

And that any land within the said district lots which has by said special survey been added to any lot or block shown on the original surveys of the lands affected shall vest in the person owning such lot or block; and that any land which has by said special survey been added to any road, street, or lane shown on the original surveys of the lands affected shall vest in the Municipality of Burnaby.
